THE LAKE.

By the still waters that the lilies love,
Where willows droop and tall elm trees shade
While the great sun filled all the heavens above
I down me laid.

I heard the twittering of the mating birds,
I heard the wanton breeze steal down the brook,
High to the leaves soft thoughts too sweet for words
And kiss the lake.

And here, when life was young and hope was high,
On such a summer day I laid me down and dreamt
And dreamt of love and strife and victory
And high renown.

And here again I lay me down and dreamt,
The sun's as bright as then, the birds as gay,
Still on the lake the water lilies gleam
In rich array.

The world's as young as ever! What am I?
Weary with years, weary with fortune's quest,
Weary with sorrow, my soul hope to die
And then to rest.

—J. A. Strahan in Fall Mail Magazine.

HIS NERVE WAS THERE.

This Sort of Centipedes Was Harmless, but He Didn't Know It.

The Hawaiian Islands are almost as well off as Ireland. St. Patrick drove all the venomous insects and reptiles out of the Green Isle, but the Hawaiians claim that the reptiles and insects left on Mr. Dole's domain are in no sense of the word poisonous.

People who have particular dealings with venomous insects imported from the islands make the same claim. A local fruit importer said:

"Very frequently we receive consignments of bananas and pineapples packed in dried grass and leaves. In taking the fruit from the boxes it is not uncommon to find a big centipede crawling along the stalk between the bananas, doing his best to get used to the California climate."

"One afternoon I was opening a box of bananas and pushed my hand through the straw to get at the stalk. I felt around for a few seconds and thought I could feel something moving around on the back of my hand. I had often heard of the presence of centipedes in fruit shipments, so I carefully withdrew my hand, so as to make as little commotion as possible. Imagine my surprise and alarm to see a five inch centipede slowly crawling up my arm. I was about to strike it when a fruit pucker standing near by warned me to make no attempt to get rid of it, but to let it crawl off at its leisure. I had forgotten the fact that they were not poisonous, and I knew I got as white as a sheet, believing every moment that it would sink its claws into me and send its powerful poison through my blood."

"I looked at it with fear and trembling, but did not dare to move a muscle. It lifted his head and seemed perfectly satisfied to remain where it was. I could hardly restrain myself from making a quick motion and shaking it off, but my companion warned me again and again to keep quiet. All I could feel was a tickling sensation. The tickling increased, and I was almost ready to faint with suppressed excitement. Finally the centipede looked up at my sleeve and slowly made for it, moving all the legs in unison. The sensation by this time was unbearable, and I feared I would be unable to remain calm until the thing got entirely off."

"My flesh seemed to shrink away as the horrible creature proceeded, but in a few more seconds, every one of which seemed an hour, it had settled itself comfortably on the fabric of my clothing, and with a motion quicker than I was ever known to make before I flouted it with a stick and sent it down, disappearing from head to foot. It was the most thrilling experience I ever figured in, and it made me sick the rest of the day."

"My companion began to laugh as though he would die of merriment, but I saw nothing particularly humorous in the situation."

"You are crazy," he said, "and are frightened over a little thing like that. Do you know that Hawaiian Island centipedes are not poisonous? I told you to keep quiet just to see how long your nerve would last. If the thing had sunk every claw it had into your flesh, it would have only caused a little swelling and nothing more. I have had several of them strike me, and I apply a little ammonia or salt water and cure it up in half an hour."—San Francisco Call.

A Lawyer's Report.

Judge Campbell tells a story about the cross examination of a bad tempered female in his court. She was an Arizona person. Her husband, obviously the weaker vessel, sat sheepishly listening. The opposing attorney pressed a certain question rather urgently, and she said angrily: "You needn't think to catch me. You tried that once before." The lawyer said, "Madame, I have not the slightest desire to catch you, and your husband looks as if he was sorry he did."—Exchange.

Beds Scarce In Russia.

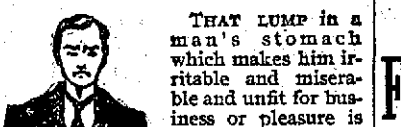

Beds are quite an innovation in Russia, and many well to do houses are still unprovided with them. Peasants sleep on the top of their ovens. Middle class people and servants roll themselves up in the sheepskins and lie down near the stoves. Soldiers rest upon wooden cots without bedding, and it is only within the last few years that students in schools have been allowed beds.

ERIE MEDICAL CO., Buffalo, N. Y.

THAT LUMP in a man's stomach which makes him irritable and miserable and unfit for business or pleasure is caused by indigestion.

Indigestion, like charity, covers a multitude of sins. The trouble may be in stomach, liver, bowels. Wherever it is, it is caused by the presence of poisons, refuse matter which Nature has been unable to rid herself of, unaided.

In such cases, wise people send down a little health officer, personified by one of Dr. Pierce's Pleasant Pellets, to search out the seat of trouble and remove the cause. One little "Pellet" will remove a very big lump and act as a gentle laxative. Two "Pellets" are a mild cathartic. A short "course" of "Pellets" will cure indigestion permanently. It will cure constipation. After that, you can stop taking them. A good many pills act so violently as to derange the system, and in its disordered state, digestion will not go on without a continued use of the pills. That's the worst feature of most pills. Dr. Pierce's Pleasant Pellets never make slaves of their users.

Dr. Pierce's Pleasant Pellets—it's an easy name to remember. Don't let a designing druggist talk you into "something just as good." He makes more money on the "just as good" kind. That's why he would rather sell them. That's why you had better not take them.

Whenever they are tried, they are always in favor, a very simple package (4 to 7 doses) is sent to any one who asks. World's Dispensary Medical Association, Buffalo, N. Y.

THE PURITY OF ELECTION LAW.

Attorney Lothrop of Dayton asked Attorney General Beatty his opinion as to how much money a candidate can spend under the Purity of Elections act. The Times prints the Attorney General's reply in which he directs attention to the fact that section 5 of the Act, which covers a full page in the Statutes, is but one sentence with no full stop from the beginning to the very end. In other words when the author once got started he did not know how to stop and so put several separate provisions into one single sentence. From a careful reading of the section the Attorney General comes to this conclusion:

"That the expenses of the 'conduct and management of an election' and 'incidental expenses' are intended to be two separate and distinct allowable expenditures, and that for the former, viz., public meetings, etc., etc., as enumerated, a candidate may be assisted or voluntarily contribute legimately the per centage of his first year's salary, etc., etc., and may in addition himself expend \$100 for 'incidental expenses' or by committee \$800 for the same, all of which must be sworn to and receipts taken or vouchers filed for all sums expended, either those paid for the 'conduct and management' or for 'incidental expenses.'"

"The reason, as I take it, that a committee can spend \$800 more than the candidate himself is that the committee may send some candidates on electioneering trips as orators, or otherwise, and in that way incur more 'incidental expenses' than the candidate himself could who is limited to \$100."

The Attorney General takes a common sense view of the section referred to, which is as long as the Moral law, and while many differ from that view, the language of the statute cannot be construed, differently without violating the rules governing the formation of sentences. However, the opinion of the Attorney General, whether sustained by the courts or not, will relieve candidates who are governed by his construction of the law from any intent to violate its provisions.

THE EFFECT OF TWO BRYAN ELECTORAL TICKETS.

The people generally understand that they do not vote direct for President of the United States, yet there are those who imagine that it is immaterial to Bryan whether they vote for Bryan and Sewall or for Bryan and Watson electors, as their votes will be counted for Bryan in either event. Those good people should disabuse their minds of that idea at once. Assuming that 7,500 voters in Nevada are for Bryan and that one-half of them should vote for the Bryan and Sewall electors and the other 3,750 should vote for the Bryan and Watson electors, the gold men with 3,800 votes for the McKinley electors would give the electoral vote of the State to that gentleman. Do the Bryan men want to run the risk of endangering an electoral vote for their candidate by dividing their strength on two sets of Presidential electors? It is safe to assert that there is not a real Bryan man in Nevada who will knowingly risk giving the electoral vote of this State to McKinley by voting for the Bryan and Watson electors. They know that the Bryan and Sewall electors are pledged to vote for Watson. If the contest should be between him and Hobart for the Vice Presidency. That is all the Watson electors can do should they be elected and they are not pledged to vote for Sewall should he have more votes than Watson, but not enough to elect him without their votes.

There seems to be no danger of the defeat of the Bryan and Sewall electors in Nevada, but to make assurance doubly sure every Bryan man in the State should vote for them. This is no time for hair-splitting. The Bryan and Sewall electors will do all for Watson that the Bryan and Watson electors can do if they are elected. Under such circumstances the manly, patriotic thing for the Bryan and Watson electors to do is to have their names taken off the official ballot. There is no probability of their election; they can do nothing for Watson that the other Bryan electors are not pledged to do, and they should not endanger the election of Bryan by dividing his vote in this State. Two Bryan tickets are encouraging the gold men and to prove to them that the Watson men are as loyal to Bryan as the Sewall men, the Watson electors should withdraw.

BRYAN CONFIDENT OF ELECTION.

William J. Bryan is confident that he will be elected. He has been through the so-called doubtful States, conversed with people who understand the situation and as a result of his observations and information says:

"I have no doubt of my election, and

I have my confidence upon the fact that the free coinage sentiment is growing every day. The people are studying the money question, and the study of it is convincing the people that there can be no permanent prosperity so long as the gold standard is maintained. The gold standard makes a dearer dollar; a dearer dollar means falling prices and falling prices means hard times.

"The people who profit by hard times are relatively so few in number that they would amount to nothing at all but for the fact that they are aided by a considerable number of the people, who, not having studied the money question, have received instructions from a few financiers. The number of Republicans who have declared for free silver, outnumber the Democrats who have deserted the ticket, and while the number of silver Republicans is increasing all the time, the number of bolting Democrats is all the time decreasing.

"While I have no doubt as to my election, I believe that every advocate of free coinage should aid in the work from now until election day, to make the majority in the Electoral College so large that no party will ever dare to propose submission to a foreign financial policy again."

A MAJORITY of the members of the Miners Union at Leadville have decided to remain quiescent until after election. If Bryan is elected they hope that the Managers will at once accede to their demands, and if Mc Kinley is elected they will abandon the strike.

For the first time, every Democratic Candidate for Congress is a free coinage man. Mr. Hannas assistants otherwise known as the Gold Democrats, have not a Congressional Candidate in the field, as the only object of their organization is to assist the Republicans.

TELEGRAPHIC NOTES.

James Conlan, a boss stove-dore, fell into the hold of a vessel which was being loaded and was instantly killed.

The festival at Fresno, California, is attended by 20,000 people. The civic and military parade was reviewed by Governor Budd.

Patrick McHalleon, an old and respected citizen of Sacramento, was thrown from a wagon yesterday by a runaway team and killed.

The Secretary of the Navy has awarded the contract for building one of the thirty knot torpedo boats to the Union Iron Works of San Francisco.

Sixty-five sacks of \$65,000 ore were stolen from the May Belle mine. The company has no clue, but it sought revenge by discharging every man about the works.

John McMahon, a section hand had been drinking and went to sleep on the track at Wright's, near San Jose, California. He was run over by a train and horribly mangled.

A fire in the basement of the Circle Park Hotel at Indianapolis yesterday melted the natural gas pipe, and the explosion injured Fire Chief Webster and Fireman Stapleton.

A Kearney street car collided with a brewery wagon in San Francisco. The car was smashed and several passengers injured by being thrown to the ground and cut by broken glass.

D. Knowles an old citizen of Ben Franklin, Texas and his married daughters were assaulted in their home by unknown persons, and struck with an axe. Knowles is dead and the daughter may recover.

Whitall, Tatam & Co., glass manufacturers at Millville, New Jersey, propose to start their furnaces at a reduction of 20 per cent in wages. The threat of hiring non-union men has created great excitement in the locality.

The Ozar and Czarina left Portsmouth, England, yesterday in the imperial yacht Pole Star. They were escorted across the channel by a French squadron, and arrived at Charbourg, where they were received by President Faure.

The ticket nominated by the McKinley men in Colorado has not been filed, though the time for doing so has expired. It is doubtful if the ticket can be placed on the official ballot, as the silver Republicans will protest against it.

The tie-up on the Canadian Pacific is complete. Only a few passenger trains are moving. Grand Secretary Austin says the dispatcher at Smith's Falls, the only one who remained at work, has gone out. It is reported that the road is losing \$75,000 a day. Cattle are starving in the cars and goods from China and Japan are at Vancouver awaiting shipment. Commercial and other telegraphers have refused to take the places of the strikers. The railroad is advertising for men in the United States.

For Over Fifty Years Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. THE BANCROFT.

Men Working Day and Night Preparing Her For Turkey.

The cadet training ship Bancroft has been docked at the Brooklyn navy yard to be put in shape for her cruise. She will be schooner rigged, and her coal capacity will be increased. Work will go on night and day, by 150 men, until she is ready. Electric lights have been rigged for the night work.

Some about the yard think that the unusual haste in this case certainly means that the cruiser is to be sent to Constantinople to support the demands against Turkey.

Commander Belknap and the officers will not talk, but the yard officers are certain that the Bancroft is designed to represent this government at the Danubian, as she is the only vessel of the United States can send which is of the requisite smallness.—New York World.

Hetty Green Kept Her Word.

Hetty Green kept her word. She told a reporter for The Tribune on Thursday evening that she would donate property on which to build a home for aged actresses. She also said she would deny the story if it was printed, as it would cause a run on her sympathies and her bank account.

The story was printed yesterday morning. Mrs. Green kept her word and denied it.—Chicago Tribune.

Parson Brooks Sues For a Divorce.

Patrick Henley was smitten deaf and dumb at Saratoga recently while talking with friends. He wrote on a piece of paper:

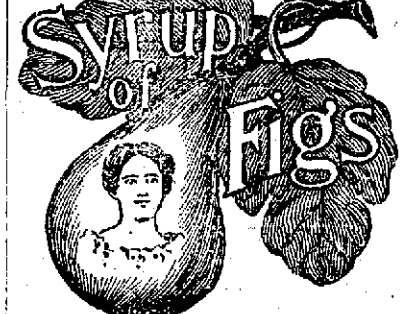

"Do not be alarmed. This will pass in three days. I know what it is. I've had it before."

Henley, while in Ireland, 20 years ago, was thrown from a horse. As a result of injuries received he was deaf and dumb for three days. Every four years since then he has a similar attack, lasting in each instance three days.

New Building For the S. F. C. A. The American Society For the Prevention of Cruelty to Animals has filed plans for the new six story brick office building which it will erect at the north east corner of Twenty-sixth street and Madison avenue, New York. The building will cost \$125,000.

Rats have been found very useful in cotton mills where the raw cotton has been imperfectly ginned. In a Spanish cotton mill the storeroom was invaded by swarms of rats, who pulled the bales to pieces to get at the seeds left in the cotton. They did the work thoroughly without injuring the fiber in any way.

The first iron forgo in English North America was located at Raynham in the year 1663.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Miss Mabel Stanaway writes relatives in Reno that she has successfully passed her preliminary examination and entered upon her studies. She is under the instruction of the teacher of the late Miss Flo Finlayson, and he says that Mabel has a phenomenal contralto voice.

A wondrous flow of eloquence was the result of the McKinley and Hobart Club meeting on Saturday night. Demosthenes Turritin, Patrick Henry Hamlin, Cicero Cunningham, McKinley Phillips and Hanna Bragg told how heavily the affairs of the Nation were resting upon their shoulders and advised their few listeners to brace up and help them out, for they needed assistance, and the recognition that the speakers would receive in the event of McKinley's election, would be a great reward, and their few followers could gaze in admiration and lend them for their patriotism, while they drew the alarums of Federal positions.

Marvelous Results.

From a letter written by Rev. J. Gundersman, of Diamonddale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at River Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at S. J. Hodgkinson's drug store. Regular size, 50 cts. and \$1.

BASEBALL.

An Interesting Game at Carson Sunday and Won by Reno.

The game of baseball, Sunday at the Carson fair grounds, between the Comstock nine of Virginia City and the Nevada Champions of Reno, will long be remembered by those that witnessed it as one of the most stubbornly contested games ever played in this State.

With but one hundred "rooters" from Reno, against five hundred from Virginia and Carson, and the disadvantages under which the team had to play, all goes to show that Reno well deserves the well earned victory she achieved.

The excellent team work and the heavy batting of the champions, surpassed any of their former efforts, while the work of the Comstockers in the field as well as at the bat, is in no way to pass without the merit it deserves.

The three double plays of Mazingo and Ferguson, and the long running catch of Dodge in the right field, were the notable features of the game.

The pitching of young Perrow and the fielding of Campbell of the opposing team is also well worth mentioning.

We hope that the Reno team will soon again be able to prove to its many admirers that they are what they claim to be, viz.: Nevada Champions.

The following is the score by innings:

SENATOR JONES ARRIVES.

He Thinks Bryan's Election is Certain.

Senator John P. Jones arrived from the East Sunday morning and left for Gold Hill by private conveyance. He is in robust health and has been engaged for some time in preparing material for the campaign east. He had to leave against the protests of the Chairman of the several Bryan National Committees, who cannot realize that there is any opposition to the return of him or Congressman Newlands from Nevada. The people of Colorado, with the exception of a few of Mr. Hanna's men, are unanimous for Seant or Teller and he is east advocating the cause of silver and refuting the falsehoods of the gold gamblers in Ohio, Michigan and other States.

Senator Jones will return from the Comstock in a few days and will probably speak here in the near future. He believes Bryan will be elected President, though millions are being spent to defeat him and the employees of trusts, railroads and monopolies generally are being coerced to vote for the gold candidate.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness, yield to Electric Bitters. Fifty cents and \$1 per bottle at S. J. Hodgkinson's drug store.

The Railroad Assessment Reduced.

Assessor Evans' figures on the C. P. R. R. were reduced yesterday from \$14,000 to \$13,000 per mile or a total of \$53,000. The N-C-O. was reduced from \$2,500 to \$2,000 per mile. The Board was in executive session for some time, but finally came forth with the order to be entered as above stated. The V. & T. figures of \$9,500 per mile are under consideration and it is presumed will be settled to-day.

THAT JOYFUL FEELING

With the exhilarating sense of renewed health and strength and internal cleanliness, which follows the use of Syrup of Figs, is unknown to the few who have not progressed beyond the old-time medicines and the cheap substitutes sometimes offered but never accepted by the well-informed.

GRANT RAIDED THE PARTY.

How the General Once Broke Up an In-
teresting Poker Game.

J. F. B. Lillard tells the following
poker story, says the San Francisco
Wave:
"General Grant once interfered in a
most unwarranted and arbitrary man-
ner with a poker game that was paying
me a big profit," said Andrew Danner.
"It was shortly after the battle of Shiloh,
and we Confeds were feeling pretty bad-
ly down in the mouth. I was on the ad-
vanced picket line one bright moonlight
night, and the Yanks had a post only a
few hundred yards away. We shot at
each other until we got tired of the
sport, then we swapped newspapers,
coffee and tobacco. A dave devil young
Yankee corporal walked right into our
post, sat down on a log as unconcerned
as you please and asked us if we knew
how to play draw poker. Did we? We
didn't. He taught us. Had we any
greenbacks? A few. Then he palmed out
a deck of cards, and we went down to
play. Pretty soon another Yank came over,
then another, until there were six of
them, and we all joined in and played
a side open game, forgetting that the
cruel war was not over.

"Luck came my way, and I soon had
everything but the Yankee corporal
broke. The rest were squatted round,
blue and gray, watching the game, when
there came that ugly 'e-l-l-ick-ick' so
familiar to the soldier's ear. We looked
up, and there stood a Yankee sergeant
with four men, their muskets cocked.
'Members of the Forty-ninth, consider
yourselfs under arrest,' said the ser-
geant. 'Oh, come now, sergeant,' the
corporal began, when a horseman reined
up behind the guard, and he concluded,
'General Grant, by hocky!' The blue-
coats got up looking like a lot of whip-
ped schoolboys and saluted their com-
mander, who eyed them as sternly as a
sphinx. They filed in front of the guard
and started for camp. When their backs
were turned on him, Grant removed
the cigar from his mouth, and, with a
cruel smile, asked the Confederate
corporal, 'Who's ahead?' 'Oh, we
are,' replied the defender of the stars
and bars. 'Those chumps you've
brought down here can't play poker a
brand bit. But they can fight, general,'
I remarked. 'Have to some times,' said
Grant dryly and rode away."

HOW PEOPLE REST.

Some sit and Lie Down, While Others
Crouch and Kneel.

There is wide difference in the modes
followed by the various races of the
world in taking their rest. It seems to
be a common thing that by far the most sat-
isfying way to do it is either to sit or
crouch, and there are millions of hu-
man beings that rest quite as well in
these positions as we do.

The most barbarous races crouch and
lie down, and do it so com-
fortably that they sleep in these po-
sitions as easily as an American does in
his bed. The lower classes among the Hin-
dians and some of the South American
races sleep thus, the men usually crouch-
ing and the women kneeling.

In the next higher grades of civiliza-
tion these positions give way to sitting
with crossed legs. This is the sitting
posture of the Mussulman and the Pa-
cific Island races, as is well known. In
some Russian houses, however, it is not
unusual to see the inhabitants and
guests ranged about a room kneeling
against the wall.

Another step upward on the ladder of
civilization brings us to chairs of var-
ious forms. A primitive chair consisting
of a simple wooden support a few inches
high is found in some parts of Africa.
Then comes the same support with
a round crosspiece, which is seen in
Guinea, and then a flat crosspiece with
two legs, which is used in the upper
Nile country. Finally comes the three
and four legged stools and chairs, some-
times in simple form and sometimes
handsomely carved, which are found
among the civilized races all over the
world.

In Egypt the fellows retain the four
postures of their ancestors, the kneeling,
the sitting, the cross legged and the sit-
ting upon the ground with legs joined.
All four date from the eighteenth
dynasty.—Exchange.

Cure of Nose Bleed.
In weak persons bleeding at the nose
is frequently painful and should be
stopped without delay, as continued
hemorrhage may prove fatal if neglected.

Those who suffer from poorness of
blood, or anemia, and are sometimes
seized with violent nose bleeding,
should avoid, as far as possible, any-
thing which may tend to bring it on.
Gentle exercise only should be taken, as
violent bodily movements may provoke
a repetition of the hemorrhage. Even
running down stairs hastily should be
avoided.

Bleeding at the nose is usually a sign
that something is wrong with the sys-
tem. The cause should, if possible, be
discovered and steps taken to remove it.

NERVOUS Troubles are due to
impoverished blood. Hood's Sas-
saparilla is the One True Blood
Purifier and NERVE TONIC.

EDUCATIONAL CIRCLES EXCITED OVER LIGHTNING ARITHMETIC.

An Ohio Man Has a System Which He
Thinks Should Be Taught in the Schools.
He Gives a Newspaper Man Some Illus-
trations of His Method.

Educational circles are in a pitch of
excitement over the introduction in the
public schools of Chicago of a system of
instruction in what may be termed
lightning arithmetic. Many of these
interested maintain that the proposition
is impracticable on the theory that only
such persons as have natural arithmet-
ical genius can be able to use to ad-
vantage any sort of rapid calculation. The
incident and the attending interest led
a representative to make some inquiry
into whether or not there is any move-
ment to introduce the new system in
the schools of this city. Although it is
the subject of not a little discussion
among the teachers of the city, no steps
have as yet been taken.

One of the most interested in this city
is Mr. O. D. Hinkle, who is connected
with the M. C. Lilley company. Mr.
Hinkle has been in the mercantile busi-
ness for a number of years, much of
which time has been spent in this city,
and has been regarded as one of the
most rapid calculators in the state. His
work has not been on the fancy order,
but straightforward use of rapid meth-
ods in practical business. Having seen
Mr. Hinkle add, subtract, divide and
multiply long lists of figures in bill-
ing out goods of all sorts as fast as his as-
sistant could call them off to him, and in
500 pages of ledger accounts having
made not one single mistake, The Dis-
patch was interested to know whether
the system mentioned in Chicago was
related in any way to that which he
used.

Mr. Hinkle was found most enthusi-
astically interested in the method, and
quickly remarked, upon being asked,
that the supposed new system was iden-
tically the same that he has been using
for 25 years. Indeed, Mr. Hinkle has
been for a number of years thinking se-
riously of making an effort to have
some of the schools take it up as a part
of their course of instruction. Speaking
of the new method, Mr. Hinkle said:

"Is the system sound? Is it practical?
Yes, most emphatically to both ques-
tions. It is natural computation, and it
is just as easy to teach a child or grown
person the relationship of numbers as it
is to teach them the relationship be-
tween persons. Use 100 for the head
of the geological tree of the family of
figures, and it is just as easy and natural
to teach a child that 25 per cent of any
amount is one-fourth of it, because 25
is one-fourth of 100, as it is to teach
him that that old gentleman is his
grandfather because he is his mother's
father, or that 12½ per cent is one-
eighth of any amount, because it is one-
eighth of 100, as it is to teach him that
the early head over there is his cousin
because he is his father's brother's child.

"I'll give you some examples in short
mental arithmetic for a change. Say
you buy 80 yards of carpet at 62½
cents; 62½ cents is five-eighths of 100;
five-eighths of 80 is \$60. Easy number.
Take an old one. Say 85 yards at
62½ cents; five-eighths of 80 is \$60; add
three times 62½ cents, which is \$1.87½;
total, \$61.87½. Say you buy 167 yards
of dress goods at 32½ cents; 32½ cents
is one-third of 100; one-third of 167 is
\$55.66½. Say you sell 350 pounds of
wool at 16½ cents; 16½ is one-sixth of
100; one-sixth of 350 is \$58.33½. Say
you buy 100 bushels of potatoes at 50
cents, \$50. Easy, isn't it? But if it were
99 bushels at 49 cents you couldn't do it
so easily, and yet it is no harder, if you
only knew it. Say 99 times 50 is \$49.50,
less one 99, which is \$48.51, and it is
no more difficult than 100 times 50.

"Almost every child can do multipli-
cation up to 12, but how many older
people can go higher than 12 easily?
Yet it is easy to go to 600 if he is a
quick adder. I think my rule for squar-
ing large numbers is simpler than Mr.
Speers' way of doing it. For example,
start at 12. Twelve times 12 is 144. To
get the square of 13, add 13 and 13 to
square of 12; 13 and 12 make 25; 25 to
144 is 169. Square of 14—14 and 13
equals 27; add to 169, makes 196. To
square 15—15 and 14 equals 20, added
to 196 is 225. The square of 50 is 2,500.
To get square of 51—51 and 50 are
101, added to 2,500 equals 2,601. To
square 49—49 and 50 are 99; subtract
from 2,500 is 2,401. The square of 100
is 10,000. To get square of 99—99 and
100 are 199; subtract from 10,000, equals
9,801. To square 101—101 and 100 are
201, add to 10,000, equals 10,201.

"This may look hard to some, but
when one has been drilled in multiply-
ing larger numbers mentally it is as
easy as falling off a house. Some will
complain that I have no right to say
in 80 yards of carpet at 62½ cents
five-eighths of 80 is \$60; that I don't
point off according to rules. Well,
that's just what I don't want to do—
that is where time is lost. With the
drilling which a pupil would get prior
to doing this work, one of the impor-
tant things taught him would be to
know that 80 yards at 62½ cents of
five-eighths of 80, as in this case, would
be \$60, and not \$5 or \$600 or \$5,000,
which often occurs with pupils who use
the old rules for pointing off. One is
mechanical and liable to disastrous
blunders; the other has become intuitive
from good drilling and is a sure thing
always. There are legends of doubting
Thomasess, the most of whom will not
look into this closely enough to under-
stand it, who will advance all kinds of
arguments against it. One of the first
arguments will be that it would be easy
enough if people would buy and sell
everything in quantities and at prices
that were fractional parts of 100."
